

Dexamethasone Suppression Test

Instructions

1. You will need to make an appointment for this test.
2. No preparation or fasting required.
3. This test is performed on two separate days.
4. **Day 1** - A blood sample will be collected between 8:00 and 9:00 am
prior to taking the Dexamethasone tablets.
5. You will be asked to take two Dexamethasone tablets,
with 1 glass of water at 11:00 pm of day 1.
6. **Day 2**
 - Return to the Collection Centre between 8:00 and 9:00 am
to have a second blood sample collected.
5. This completes the test.
